## Responsible and Respectful Choices Men's Group Program

The Responsible and Respectful Choices Men's Group Program has been designed to assist men who have used domestic and family violence to control, intimidate, and/or coerce intimate partners and/or family members.

### GOALS OF THE PROGRAM

- ◆ Expand men's understanding of the wide range of behaviours used to control partners;
- ◆ Increase men's awareness of the intentions and thinking that support their choices to abuse;
- ◆ Increase men's understanding of the impact of their abuse on themselves, their partners, children, and others;
- ◆ Challenge men's efforts to deny or justify their abuse and attempts to minimise or shift responsibility;
- ◆ Increase men's motivation to engage in a process of change that supports safe, equitable and respectful relationships; and
- ◆ Support men in creating specific plans for ensuring their partners safety.
